# All About Aquarius Men

Aquarius men are the **most eccentric men in the zodiac**. Ruled by Uranus, they're one of the hardest men to truly understand as they sometimes seem to come from another world or galaxy. Physically, they're often **VERY** tall with light eyes.

**Aquarius is associated with the Greek god Ouranos, as well as Prometheus.** Prometheus did what he could to pass on information of the gods to the people. He even passed on fire. When he did this, he was punished greatly for it.

Just like Prometheus hanging upside down every day, **Aquarians can be, and feel, very isolated.**

Aquarius' association with Ouranos shows that **Aquarians can think of themselves as gods and higher than other people around them.**

Ouranos fell when he was so power hungry that his testicles were cut off and spread to the ocean, which gave rise to Aphrodite.

**Aquarius men are often exceptionally intelligent** – especially when it comes to the world of math, science, and technology. It is thanks to the Aquarians of the world that there are so many technological advances in the world.

**Aquarius men are, unfortunately, often VERY emotionally detached.** This makes loving them very hard for Pisces, Cancer, and Scorpio, who require a deep emotional connection to bond in loving relationships.

**Aquarius men are often best suited to the other air signs** (Gemini and Libra), including their own sign. These air signs understand and accept them best. They also understand Aquarius' rebellious nature, and Aquarius men suit the **fire signs** well too.

They rule the 11<sup>th</sup> house which is all about **goals, dreams, ambitions and hopes for the future**, as well as friends. Aquarians will always have a bunch of friends. They won't really have best friends, but many friends that are equally important to them.

**Aquarius men only get married when they feel it is the right time in their lives.** They are not the kind of men that rush to the altar. They will also usually have children later into their relationships, so this is something you may need to discuss once coupled up.

**Aquarian men make the best of friends**, and they're wonderful to have around when hosting parties at the house. They will always care for you deeply, even though it's sometimes **hard for them to cry or show deep emotions**.

Famous Aquarius men include famous basketball hall-of-famer Michael Jordan, Cristiano Ronaldo, John Travolta, Tom Selleck, Harry Styles, the late Bob Marley, Michael B. Jordan, The Weeknd, Dr. Dre, Joseph Gordon-Levitt, and Ashton Kutcher.

Perhaps this is a secret they don't want you to know, but **Aquarius men like to do things differently when it comes to sex**, and this is something you should keep in mind for later.

But there are 27 Dirty Phrases that really turn this "eccentric rebel" on, **27 Dirty Phrases that will keep him begging you for more and more**, and 27 Dirty Phrases I am about to reveal to you...

Remember, astrology is not a game - it is a science that has its roots in ancient times, and it has been used for centuries to predict events. **There is no other science like astrology that can break down a person's personality or "sexology" so accurately!**

**So, what are the 27 Dirty Phrases that turn Aquarius men on so much? Let's have fun and begin...♥♥♥!!!**

## **27 Dirty Phrases to Make Your Aquarius Man Beg for More**

### ***1. "Babe, if you beat me at chess, I'm all yours tonight!"***

**You can never say anything too obvious with Aquarius men**, especially when first dating them. They don't operate from a primal level. It is the mind that stimulates them the most.

By giving him the challenge of beating you at chess, he gets the opportunity to work his brain at one of his favorite games (chess - the ultimate game of logic), and have fun with you at the same time.

**He will play exceptionally strategically so that he can win and have you all to himself for pleasure later on in the evening.**

Just a tip - the harder you play, the more turned on he will get. **Even if you do beat him, he will want to rechallenge you over and over again until he wins.**

### ***2. "I got a few sex toys, wanna see?"***

Aquarius men are really into vibrators. Anything that infuses technology with sex is fascinating to them.

He will love having sex with you while using a vibrator at the same time. Get a variety of vibrators from your local sex shop, or buy them online and spice up your sex life.

He'll adore cock rings, so buy a few of those too!

### **3. “*Babe, please give me a foot massage!*”**

**Aquarius rules the calves, ankles and shins**, so giving you a foot massage will really turn them on – they may even have a fetish to lick your ankles and bite into your calves.

Make sure you get a pedicure before saying this to him, give him rich coconut scented cream (or any other cream that you like) to rub into your skin, and **watch his erection grow**.

**Afterwards, place your feet on his erection, and let the night take you where it's meant to go!**

### **4. “*Let's try BDSM!*”**

Bondage, discipline, sadism and masochism is very much something that Scorpios (and even Taureans) are into. However, **Aquarius is a sign of rebellion**. Therefore, Aquarius men like to do things differently.

**BDSM is very appealing to the Aquarian mind, as it is a bit dangerous and something completely new to them**. Get a choker and a few BDSM toys, and have fun with your Aquarius man.

This will further open your Aquarius man's mind, and he'll appreciate the experience! He doesn't want too much pain; **he just wants to experience something that not many people enter into**.

If you aren't too sure about the world of BDSM, you can both research it online, when together, to get ideas.

### ***5. “Fuck me really hard!”***

**This is the perfect dirty phrase to say to your Aquarius man during the middle of lovemaking. It's simple and to the point, and is just raunchy.**

**Save it for when you're in a sexy position, like *doggystyle*, so he can really go at it, and you can feel it really deep.**

**You can be pretty vocal and loud with this dirty phrase, and your Aquarius man will be really turned on by it!**

### ***6. “Like how my pussy sparkles?”***

**Say this to your Aquarius man after you've had a full Brazilian wax and decorated your vagina with gemstones that are sticky at the back - the kind that you would use to decorate your cellphone.**

**Just place them where your pubic hair is meant to be in any cute formation, and he'll really like this. It's different and daring, and he'll like the way the stones sparkle.**

**You can even leave them on while you have sex - it'll be a new adventure!**

### ***7. “Like how my pussy tastes? Now make me cum!”***

**Say this to your Aquarius man when he's eating you all up. After saying it, watch him give it his all to make you cum.**

He'll love watching you moan in ecstasy as he does this for you. Afterwards return the favor and give him a blowjob that will blow his mind!

If you want to give him a blowjob SO good he gets addicted to them (and you!), [you'll want to read this now.](#)

Works like magic ;)

### ***8. "Wow, babe, you are the most intelligent guy I know!"***

Aquarian men work with their minds, and appreciate getting compliments for it. When you say something like this, he'll actually become more interested in you.

Say this to him, then hold his hands and walk him to the bedroom. Slowly undress him and engage in foreplay before making love to him.

### ***9. "Oh wow, I forgot to put underwear on this morning, please choose a pair and come put it on me!"***

This is where you hide away all your everyday panties, and let your underwear drawer showcase only **the best of your lingerie**. (And if you don't have any - go get some!!)

Have lots of colorful lingerie on display., like **bright pink, some red, purple, blue, white and black** - colors that Aquarian men can relate to.

Make sure you are **wearing a short skirt**, hike it up a little, and let him slowly put your lingerie on.

**Do this just before leaving to go to work.** No doubt he will be thinking about you all day, and when you both get home, **he'll have those panties ripped off you** before you are able to close the front door!

***10. "Babe, I need a deep tissue massage, please come spread oil all over my nipples!"***

This will get your Aquarius man to **stop doing whatever he is busy with**, even if he's on his computer playing his favorite video game.

Have some baby oil ready, or even better, a sensual aromatherapy oil like sandalwood or ylang-ylang.

Prepare a big towel or two spread out underneath you while you lie (almost) naked - keep a thong on (**you have to tease him a little**).

Have him massage your breasts and nipples slowly, sensually feeling you all over your chest.

**Allow him to pinch your nipples** while placing your hands on his body and caressing him at the same time.

Your Aquarius man will enjoy massaging you this way, and may even stop so that he can put your erect nipples in his mouth and suck away!

***11. "Let's play Streetfighter. If I beat you, you're gonna make me cum all night long!"***

**Aquarians adore video games** - they really relax their minds and let their imaginations take them to all sorts of places. Your Aquarius man will definitely have a few video games available. Hopefully he'll have this classic.

**Choose your fighter and begin playing with him. It's a fun game, and he will most probably let you win just so that he can grant you your wish and keep you cumming all night long.**

This is a dirty sexy phrase that certainly appeals to the mind of your Aquarius man. He may even buy more video games that you can play against each other if this one works out well.

### ***12. "Babe, let's go skinny dipping!"***

**Your Aquarius man will enjoy the feel of your cold, wet, naked body against his in the swimming pool.**

Both get naked and dive in. Skinny dipping can be really kinky, and it's best done **late at night** under a beautiful full moon.

When your nipples get hard, let him suck them, and use his body heat for warmth. Afterwards, **you can both have hot sex in the swimming pool!**

### ***13. "Now for dessert!"***

**Keep this for when you are eating dinner together and have cooked a meal for him.**

Afterwards, say this phrase, go to the kitchen, **strip and wear high heels**, and bring out two little dishes of vanilla/strawberry ice-cream covered in melted chocolate.

Place them in front of him, sit down, and start eating like nothing has changed or is different.

**He's going to enjoy this little sexy and sensual edible game of yours**, and will think you're a lot of fun. Doing things like this spices up the romance between the two of you!

#### ***14. "Spank me hard!"***

Say this to your Aquarian man while **riding him, or if you are in the "doggystyle" position**. He will love thrusting into you and spanking you at the same time.

Spanking you is treating you like you've been a naughty girl, so he finds this quite sexy. However, only say it if you're comfortable being spanked.

**There is pleasurable pain involved. You can also ask him to pinch it, as this feels good to him too!**

#### ***15. "Let's watch something steamy!"***

Suggest this to your Aquarian man when you want to watch something to get you both into the mood. **You don't necessarily have to watch porn** - watching something erotic can really put you in the mood.

There's even **innocent erotica you can watch on Netflix** like the movie **"365 Days"** or the Mexican thriller drama series

**“Dark Desire.”** These will really put you in the mood - and they have interesting storylines too!

***16. “I’m going to get you hard as a rock with my feet!”***

For this, get him on the bed and strip him naked. **Take off all your clothes and rub oil all over your feet** - regular baby oil will work.

Rub your foot against his **cock until it’s really hard**, and then take both feet and jerk him off until he cums all over them!

***17. “I need it now, hard and fast, and do it before I change my mind!”***

**Aquarius men like you to take the lead at times**, as it shows you are super-confident - a trait which he finds sexy. He likes being with a woman who knows what she wants.

He’ll get to show off his strength and throw you over his shoulder, take you to the bedroom, and penetrate you just as **hard and fast as you like it**, in any position you want.

Feel free to **tell him exactly what you want!** He will be more than happy to oblige and satisfy you until you have orgasm after orgasm. **Aquarians may not be the most sexual of signs but saying things like this prompts him to be more sexually adventurous/**

***18. “Morning sweetie, just close your eyes while I ride you!”***

Say this to your Aquarius man when you’re both waking up. **Slowly climb on top of him**, and let him relax while you ride away.

Put his hands on your breasts, waist and hips, and enjoy giving each other pleasure. It’s a great wake-up treat that will **put you both in a great mood for the rest of the day!**

***19. “Baby, put your fingers deep inside and feel how wet you make me!”***

Say this to your Aquarius man when you’re both sitting on the couch watching TV. **Take his fingers and put them deep inside you** so he can feel how much he turns you on.

At the same time, touch him and feel how hard he gets. Just like you are so turned on by how hard he gets for you, **he will be equally turned on by how wet he makes you**, and will take it as a compliment.

Afterwards take off your jeans or **hike up your skirt** and sit on top of him rocking the night away.

***20. “Babe, I’m so horny, I can’t stop thinking about how big you are and how much I want it inside me!”***

This dirty phrase is killing a few birds with one stone.

You are both complimenting him and telling him how much you want him.

If you're telling him how much you want his manhood inside of you, that's exactly what he's going to do!

Sometimes you can get quite dirty with him, never disrespecting yourself, but **always keeping things light and dirty and fun!**

Your **Aquarius man wants to fulfill all your sexual desires.** He wants to feel that he can satisfy you in a way no other man can - that he is the best at doing this. **Say this dirty phrase to him whenever you're feeling horny, and you'll soon be satisfied!**

### ***21. "Babe, I want your hot, throbbing cock right now!"***

Not many men will say no to this - and neither will your Aquarius man. Say this to him when you're already getting it on. **Whisper this dirty phrase into his ear, and grind your body close to his.**

**His erection will become super-hard, and he'll want and desire you even more.** Before he puts himself inside of you, take his "throbbing cock" and stroke it gently, feeling it throb. If you want, go down on him and he'll go crazy.

Once he puts himself inside of you, he won't stop until he's really deep inside giving you everything you just asked for!

### ***22. "Pour champagne over my pussy and lick it off!"***

Take a bottle of expensive champagne and pour it all over your naked body when saying this to your sexy Aquarian man.

Choose a bottle like **Moët & Chandon** and enjoy feeling like a queen as this liquid bubbles all over you.

Enjoy the feeling of his tongue all inside your vagina and on your clitoris as he brings you to orgasm.

You can do the same for him, and **pour champagne all over his cock and suck until you swallow every drop of the delicious liquid.**

Aquarian men often like the finer things in life, and that's why something like this is really appealing to him. He'll also enjoy tasting a good champagne over wine.

The trick with your Aquarius man is to keep things fresh and new, and surprise him at times with little dirty phrases like this, getting him to engage in physical contact with you.

**He's always so much in his head that the more you get him to physically connect with you, the better. It's great to awaken his senses with taste and smell – and that's why champagne is also so great to use while getting horny with each other.**

Enjoy a hot session of sex afterwards!

### ***23. "Let's try anal sex!"***

First and foremost, if you do not like the idea of anal sex, or have had it before and didn't enjoy it - don't feel obliged to say yes to this or partake in it. It is your body after all!

**Anal sex can be very pleasurable** - but it is easier if you have KY Jelly close by. Your Aquarian man will enjoy this because it is so "different" and so taboo - even in these days.

If it is your **first time**, apply the **KY Jelly** and let him take you from behind, but let him slip himself into you very, **very slowly**. You can ask him not to put his cock in all the way. Then, you can slowly go back and forward, but ask him not to push too hard and fast.

If this is done too quickly and hard, you may find that the following day you may bleed a little bit from the anus.

If you enjoy this, make it a regular part of your sex life - you can even insert a vibrator into your vagina at the same time, as this will feel very pleasurable!

#### ***24. “We’re getting in the mood tonight!”***

Say this to your Aquarius man as you prepare dinner. What’s on the menu? **Any and every food you can think of that’s an aphrodisiac!**

Keep this for a romantic night in, even for Valentine’s Day! What will you have on the menu?

Think about hummus with cucumbers, asparagus, watermelon, dark chocolate, strawberries, figs, chili peppers, pistachio nuts, salmon, avocados, pomegranates, red wine, champagne, and cherries.

You will be so sexed up after eating all of these different types of aphrodisiac foods that you won’t be able to keep your hands off each other!

#### ***25. “Take my vibrator and show me a good time!”***

**Aquarian men enjoy vibrators** and don't see them as a threat at all, as certain other signs do. By giving him your vibrator, you are giving him the power to pleasure you any way he likes to.

Go to the bedroom and undress for him, and let him touch you with your vibrator in your vagina, on your clitoris, and even your anus - have KY Jelly close by. **This way he can enter your anus easily with the vibrator.**

Let him power the vibration to any speed he likes until you climax - he may even tease you a little. This is a fun activity to do with Aquarian partner that requires trust.

Afterwards he'll be hard as a rock and will want to carry on with the passion since you'll both be in the mood. **Start off by giving him a blowjob followed by really hot sex.** You may even want to incorporate your vibrator while you make love to each other!

### ***26. "Babe, you're the best part of my day!"***

Say this to your Aquarius man when you want to make **sweet and tender love to him.** It doesn't always have to be too dirty with this Uranian man when you want him to get into the mood - remember it's mainly the mind that turns him on!

He can be quite romantic at times, and **saying this phrase to him will make him very happy and want to spend time with you.**

Enjoy romantic lovemaking with him, and enjoy falling asleep on his strong shoulders.

***27. “I’ve been thinking of you all day, and my panties are seriously wet!”***

This is a dirty phrase best used when your Aquarius man comes home from work, or wherever he has been, and time has passed between the two of you.

**Simply whisper this phrase in his ear as he walks in, and he’ll most likely swoop you up over his shoulder and take you straight to the bedroom.**

**He’ll proceed to rip off those panties that are so wet, will probably go down on you, and give you the biggest orgasm of your life.**

Afterwards, you can please him any way you can think of!

**So, you don’t want to get TOO dirty with your phrases since Aquarius men don’t ever get too primal and dirty.**

**Leave the “filthy talk” to Scorpios and Geminis, but keep the phrases just dirty enough to turn that Aquarius man on, and lead him into a whole world of temptation!**

So now that we have covered “27 Dirty Phrases” to say to your Aquarius man, let’s look at “10 Dirty Phrases to Text Him” when you’re apart

## 10 Dirty Phrases to TEXT Your Aquarius Man When You’re Apart

Know that when you’re not together, your Aquarius man will be thinking of you a whole lot, and **will send you many texts to show his love and lust for you**. Send him a “sext”, or reply to his messages with these dirty phrases.

Trust me - when you text him these handy dirty phrases, he will really go **GAGA** over you!

1. “Honey🍯, I really want to rub your cock🍆💧 when I see you next 😊.”

Ok, this is a bit crude, but it will really get him “standing” to attention. He will probably read it a few times, because it just sounds so good.

It’s good to send messages like this to him, as it proves you’re not always a good little angel.

Aquarius likes being rebellious, and receiving messages like this from the woman he loves and lusts over is highly enjoyable for him.

He's usually in front of the computer all day long, so getting home so that he can relax and have his cock massaged by you is very appealing indeed!

**2. “Wow, it’s so cold ❄️in here, my nipples are so hard!**

Say this to him when it’s either winter, or he knows you’re in a place with a lot of aircon. This sexy text will make him think long and hard of how much he wants to rub himself against your nipples, and lick and tug them gently.

Make sure when he sees you next to wear a sexy bra that really accentuates your breasts, and take it off slowly while teasing him so that he can really long for them!

**3. “My feet need a really good massage! Get here tonight early 🙄!” {attach a picture of your feet, shins and all, perfectly pedicured}**

Aquarius men rule calves, shins and ankles, and often have a thing for feet. Just the sight of your feet alone will turn them on.

Send this message to your Aquarius man, and enjoy the foot massage you get when he sees you next!

This is a dirty phrase that doesn’t seem that dirty, but will turn him on immensely!

**4. “My pussy cat has been purring all day long, and needs a really good stroking 💧👉😺.”**

This one will really catch him off guard, and will make him hungry (and thirsty) for you. All he’s going to think of the whole day is how wet you are, and how much wetter he wants to make you!

No matter what plans he has made for later, he will probably cancel them, rush to see you, beat down your door, and just throw you on the bed, making your “purrfect” fantasy come true!

**5. “I think the King and Queen👑 should get it on tonight 💧😘!” {attach a picture of your breasts with a sexy bra on, and in between them King and Queen chess pieces}**

This is a cute message to send him that will remind him why he desires you so much and finds you so hot and sexy!

He loves women that can intellectually challenge him, and chess is a game he absolutely adores.

This will actually get him in the mood to play chess with you, as this actually turns him on, and to have sex with you afterwards.

Dating an Aquarian man really is a different experience, and this is just a little bit of interesting fun to play when it comes to enticing your Uranian man.

## 6. “🍆🍆 N-O-W!!”

This is **easy, fun, sexy and simple.**

The **eggplant** indicates one of **your favorite parts of his body**, and shows him that **you find it delicious and big** (which is important to him).

The fact that you stress the word “N-O-W!!” shows him that you’re a **woman in charge** who knows what she wants, and is **confident**, which can be a **major turn-on for your Aquarius man!**

This dirty emoji message will **keep him turned on for days** until he sees you and is able of turning the message into something tangible. He’ll find this message very cute, and will think of you fondly for it.

## 7. “All I want are those hot lips 💋 of yours on my pussy right now 💦!”

This dirty phrase is **devilishly naughty, and gets straight to the point!**

You know how much he loves going down on you, and this message will just tempt him and make him think of your pussy all day long!

Trust me when I tell you that the next time he sees you, he’s literally going to **throw you on the bed, rip off your panties and begin feasting away** on your most tender of regions.

**8. “Last night was so hot 🔥, I can’t remember the last time I came 💦so hard!”**

Obviously, this message is to be sent to your Aquarius man **the day after a hot session in bed.**

This message will really make your Aquarius man feel great, and that the job he is working so hard at - satisfying you - is actually working really well.

A message like this will only **encourage him to see more of you**, and carry on doing what he is doing in bed that gets you feeling so hot and bothered and satisfied.

It will also bother him for the rest of the day because all he will be thinking about is the hot sex the two of you had the night before!

It will leave him confident in that whatever he did the night before to you to make you orgasm is working, and he can carry on in this way to satisfy you.

No matter what, **this message will get things so hot and steamy** between the two of you that when you make it to the bedroom again, it’s nothing but a hot and fiery mess!

**9. “Can’t wait to see you tonight. I have a sexy surprise for you 😏!”**

Aquarian men always have everything so in order. **They like having control** and knowing what’s happening next.

The fact that you will have a sexy surprise for him will throw him off center a little bit, but because it’s coming from you, **and the fact that it’s sexy, makes it OK.**

Have something “sexciting” waiting for him at home - anything from bondage equipment to sex toys or even new sexy lingerie that you want to show off. When he sees you let him explore your body, and let him know what the surprise is.

You may even try a new position with him that you weren’t daring enough to do before. Surprise him sometimes (but not too often), and he’ll really appreciate you for it!

### 10. “Babe, I’m so hungry, I could just swallow your sausage whole 🤤!”

This dirty text will really turn your Aquarius man on and make him think of you giving him a hot blowjob all day long. Men in general love blowjobs where you put ALL of them in your mouth, all the way down.

They see this move in pornos and wish it could be them. Your Aquarius man will get super sexcited reading this, and will probably get hard straight away.

Make sure when he sees you next to make your lips look moist and glossy, so that his imagination can take him places before you go down on him.

If you’re not used to going down all the way, practice it slowly, taking it more and more with every blowjob. You may find yourself really enjoying it, as it will give you a sense of power, and give him immense erotic joy!

Aquarius men enjoy things that are different and new, so when you come with all these dirty phrases and text messages, he’ll find it fun, refreshing, exciting, and endearing!

So, these are all the things you should text him, but what are the things you should NEVER say to an Aquarius? Read on and find out...😬

## 5 Things You Must Never Say to an Aquarius Man

### 1. “Stop spending so much time on the computer!”

Aquarius men are the fathers of technology. The glyph for Aquarius  has its modern association with electricity, as opposed to waves of water (since the symbol of Aquarius is a water bearer).

These men will always have their smart phones, laptops and iPads close by. They will often spend weekends playing video games online with virtual friends.

Spending time on their computers really relaxes them like nothing else on earth. It is a place for them to truly escape from the world. Leave him to play with his technology - there are far worse things he could escape into.

After he's had enough of his tech-time, he'll come to you for love.

### 2. “I really don't like your friends!”

When you date an Aquarius man you inherit all of his friends. His friends are a huge part of his life, and it's very possible you met them before you officially started dating. He did this to show you off and see if they approved of you!

Aquarius rules the 11<sup>th</sup> house, which is all about friends, and Aquarians are very lucky in the fact that they are always

**surrounded by friends** and are popular. People like being around them.

If you have a serious problem with his friends, it will place a big fracture within your relationship.

### **3. “I want to get married straight away.”**

**Aquarian men are the last of the zodiac signs to get married straight away.** They're too rational to just hop right into marriage. They're also the rebels of the zodiac, and what's more rebellious than walking away from marriage which is so traditional?

They will first want to date you for at least a year or two, and will want to travel with you to see how that goes.

**Then they will want you to move in with them for another year (or three) and see if the relationship can handle it.**

If all of that fares well, they will then think out an elaborate way of proposing to you and will romantically do so.

The wedding will be grand, but note that **kids will not be in his future plans straightaway.** He will want to live a few years as a married couple before kids come along.

**If you are in your late 30s and start dating an Aquarius man,** you need to keep note of all these things. If or when things get serious, you need to discuss the fact that you want to have kids with him sooner rather than later - if that is your desire.

### **4. “I'd like you to cook more often!”**

When it comes to food and the zodiac, you need to think of three, zodiac signs. They are Taurus, Cancer and Libra (for the

beauty of food). That's all to do with the second, fourth and seventh houses.

**Aquarius rules the 11<sup>th</sup> house, and Aquarians can literally live off pasta every day.** Food is not a big deal to them. Food is so much of the body and earth, and they are so of the mind! They enjoy good food, but won't sit watching The Food Network all day long.

You will see that **all chefs have a connection to the planet Venus and the moon.** Aquarians connect with Uranus and electric energy. Their minds are always reaching higher and higher and they can't waste time in the kitchen preparing food.

They will order takeout every day of the week if they have a big project. And, to be honest, **they won't mind if you don't know how to cook or don't enjoy cooking either! It's the least of their concerns.**

So, if you want them to get into the kitchen and cook more often, it'll lead to unnecessary friction within the relationship. Let them cook at least once a week and when they offer to - otherwise just order in!

**\*\*NOTE: Of course, Aquarians with personal planets connected to the moon and Venus will desire food more than Aquarians without these placements.**

## **5. "It's my way or the highway!"**

Aquarius is a fixed sign. Aquarian men stand by what they believe in, and if you threaten them with this quote, they simply won't budge, and they will get annoyed by it.

Aquarian men are also open to many different views - remember, they are the exact opposite of Leo. Leo is all

about themselves, and thinks that their opinion matters more than others, and Aquarius won't have this.

If you are too cheeky in the relationship, or act like a spoilt brat by saying this, he will take offense. **If it is said enough times it will cause great friction within the relationship, and may cause him to eventually walk away.**

**Sex comes in all different flavors and positions but Aquarius has a few favorites that he keeps coming back to. The following are his favorite sexual positions...**

## **5 Favorite Sexual Positions of Aquarius Men**

### **1. Queen of the Castle**

**Your Aquarius man loves you on top**, as it gives him the opportunity to truly study your beautiful body.

He loves this position, as he gets the chance to **truly appreciate all your beauty**. It also allows him to relax as you are in control here.

Have fun with this, and dictate how fast or slow you want him to enter you!

### **2. Doggystyle**

Aquarius men like this style, as they can really allow their minds to wander off while they're deep inside of you. These men constantly think about things, and it's not easy to shut it off.

**However, this position allows them to close their eyes and let their minds take them to the wildest places while they're inside of you.**

They'll also enjoy this view of you and will feel that they are in charge of your body, which turns them on to a certain extent. Don't be surprised if they **spank you a few times!**

### 3. Reverse Cowgirl

This is a **sexy position** for him where he gets to stare at your butt while making love to you. Just sit on him, like you would in the “Queen of the Castle” position, but do it in the opposite direction.

**No matter what shape your butt is in, it will look very sexy this way** - so don't be shy about it, and enjoy as he grabs your ass and moves his body up and down with yours.

It's also a sexy position because it adds to the mystery of sex, as you don't look at one another.

### 4. V-Neck

This is a **sexy position** where your Aquarius man goes onto his knees and lifts you a bit off your back so that you are resting on your shoulders while he holds your calves and shins around his neck.

This is especially appealing to your Aquarian man, as Aquarians rule this area of the body. He will most probably lick and bite your calves and ankles before entering deeply into your wet walls.

**This is a really fun and stimulating position, as it allows for such deep penetration!**

\*Note that this position is to be cautioned if you have any back problems, as it can hurt the back, especially if you don't have strong core muscles.

## 5. Wheelbarrow

**This is a sexy position where you have to be really fit! Place your hands on the floor while your Aquarius male lifts your legs and separates them like a wheelbarrow.**

He then pushes his hips in-between and enters his cock inside of you while you are in this “plank” of a position.

**Aquarian men like to do things differently, and this is a very “different” kind of position. It’s fun and you’ll both enjoy it, but just take note that you need to be fit to enjoy it.**

\*Note: If it becomes too strenuous and you feel that blood is rushing to your head, ask your Aquarius man to gently lay you on the ground, stomach down, so that he can enter you this way.

So now you know Aquarians’ favorite sexual positions, but what does your Aquarius man secretly hide from you, only to be revealed later? What are the kinkiest things about him? Read on and find out!

### **3 Kinkiest Things About Aquarius Men They Wish You Knew**

#### **1. They're really into sexual toys of all kinds.**

**Aquarius rules technology**, so it makes perfect sense that your Aquarian man loves sex toys and gadgets of all kinds. He will even ask you if you have a vibrator and tell you to bring it into the bedroom.

He may even come home with a cock ring, just so he can slip it on and see how it feels while inside of you. **Take advantage of this, and have fun with it!** You can both go online together and order many sex toys for both of you.

#### **2. Many Aquarian men are digisexual**

This means that your Aquarius man is mainly turned on by sex machines and virtual reality sex.

They can't help it. They're Aquarius; they love to rebel, do things differently, and are really attracted to (and rule) technology.

Try to incorporate this into your lovemaking, and watch him get really excited!

#### **3. They enjoy giving over their power to women they trust**

Aquarian men can be very powerful men as they are always striving to do their very best in life.

One way they relax from their goal-chasing lives is by giving over their power during sex, and they do this by asking their women to be in charge. They may even have a set of

leather bondage handcuffs that they'll ask their women to use on them.

Take advantage of them, and feel confident to do whatever you want to your gorgeous Aquarian man!

**Since Aquarius loves technology so much, they also enjoy watching porn. These are the best porn fantasies to watch with your Aquarius man...**

## **5 Best Porn Fantasies to Watch Together**

Now, porn isn't for everyone, but Aquarius men will watch it, especially when feeling horny. Aquarius men love masturbating and watching porn while they do, so why not **watch porn together when you're both feeling horny** and the occasion calls for it?

Here are the porn fantasies Aquarius men love to watch the most:

### **1. Robot/Alien Porn**

This kind of sex is **usually animated and will show robots or aliens** (often with massive animated cocks) having sex and taking advantage of human women.

It's weird and wacky porn that stimulates Aquarians' minds. They enjoy this kind of porn, as there are **no limitations or restrictions to it**.

Of course, they love the technology part of all of it. Who knows? **If your Aquarian man could have sex with an alien - he probably would!**

Watch this kind of porn with him, and see if you like it.

## 2. Orgy Porn

Aquarians don't want any sort of limitations, and they like to feel free - and this is what an orgy brings them.

They get great satisfaction out of watching orgies, where **anyone can have sex with anyone - male, female, whomever!**

They, themselves, would easily partake in an orgy just to get the experience of it.

Also, an orgy is really just about a lot of fun, and **digging into your deep sexual desires of having many people want you at the same time. It's also a rebellious form of sex, as it isn't about monogamy.**

Enjoy watching this form of porn with your Aquarian man!

## 3. Vibrator Porn

This is really innocent porn where a **woman masturbates with a vibrator**. Your Aquarian man is fascinated by watching how a gadget can bring so much pleasure to the vagina.

**Make this real fun by taking out your vibrator and playing with it as you watch this sort of porn together.**

If you don't have a vibrator, make sure you order one online. **There are many different kinds out there, but if you're starting off you'll want to order the [rabbit](#) or the dolphin!**

What's great about this sort of porn is that it's just about the satisfaction of the female. There's no sort of violence involved and it's really innocent, celebrating the female orgasm.

**Both of you will be really turned on after watching this and may just have a really hot and heavy session of sex afterwards!**

#### **4. Regular Man on Woman Porn**

**Aquarians are not known for being sexual deviants, and sometimes just watching normal man-on-woman porn is good enough for them.**

**This can be really romantic porn that is very passionate and actually nice to watch as it looks like real love making instead of hardcore porn that is often quite violent and semi-degrading to women.**

**Watch romantic porn, and get in the mood for a session of deep and meaningful connection and really beautiful love-making.**

#### **5. Erotica Porn**

**This is the kind of porn you would see in the cinematic world. It would be the kind of erotic porn seen in movies like “Lolita” or “Fifty Shades Of Grey.”**

**This kind of porn is never too obvious or dirty, as it suggests the act and never shows too much. It makes the act look sexy!**

**It is suggestive to the eye and not straight up in your face, and Aquarian men are turned on by what is actually happening and where their imaginations are taking them with regards to what they are watching.**

**Now, who says there was ever anything wrong with watching the “50 Shades Of Grey” trilogy with your man? Sit back, and enjoy getting in the mood!**

Now that we've gotten porn out the way, I bet you're dying to know what sex would be like with an Aquarius man according to your own Zodiac sign. Well, here you go...

## 12 Zodiac Sex Signs & Aquarius In Bed Together

### 1. Aquarius & Aries

There are two strong planets coming together here - **Mars**, full of energy (and aggression), and **Uranus**, full of shock and electricity. Therefore, the sex between these two is like dynamite!

Aquarius is an air sign, while Aries is a fire sign, which is a great combination to start off with! They make a **sextile aspect** to one another, meaning they're 2 Signs or 60 degrees apart in the zodiac. This is **one of the most harmonious aspects for love**.

As a couple, the **Aries lady** always ignites the passion in the **Aquarius man** who is intrigued by her fierce personality and independence. She finds his eccentric ways quite a challenge, one that must be conquered!

The sex between these two is very wild and passionate. He loves how much energy she has, and is able to last the entire night. She loves the fact that he is very experimental, and tries things with her nobody else has before.

The Aquarius man needs a partner that is brave enough to venture into sexual arenas that many other signs just will not go to.

**This is a great match for marriage**, where there will always be a spark between husband and wife. They will both give each other the independence that they individually need, and their children will be brought up to be independent thinkers with courageous souls.

## 2. Aquarius & Taurus

Both these signs are fixed, meaning **they're both set in their ways and like building on what they already have.**

Aquarius is a masculine air sign, while Taurus is a feminine earth sign. **They form a square aspect to one another (3 signs or 90 degrees apart) - and these are never easy!**

The Aquarius man is always thinking of ways to expand humanity in a positive way through humanitarian efforts, as well as developing human technology in great efforts. **Taurus couldn't care less about that.** She just wants all her creature comforts to feel secure.

However, **the sex is great** as the Taurus woman is very sexual and sensual, and sex is very important to her happiness, while the Aquarius man appreciates all her efforts and is willing to do many things to her to explore her orgasm.

**Both of these signs can be stubborn**, but not as much as Taurus who won't budge if she doesn't feel like it. Their differences may be a cause for concern in their relationship.

Aquarius always wants to explore, away from the home, and learn more, Taurus wants to stay at home and cook, go out to

new restaurants and explore luxury spas or go on nature trails.

She has **no interest in her Aquarian man's love of technology** and it will drive her crazy if he spends all day staring into his smartphone or laptop.

This pairing works best if the Taurus woman has any of her personal planets and/or aspects in Aquarius or other air signs, and if the Aquarius man has any personal planets and/or aspects in Taurus or other earth signs.

### 3. Aquarius & Gemini

The **Gemini lady finds her Aquarian man's mind fascinating**. It's like he's always walking around with electrical sparks flying around his head and she just wants to tap into that, as her mind is always racing ahead and thinking!

They are both of the air element and both masculine signs, and understand each other well. They get turned on by mental stimuli. Together, they make a **trine aspect**, meaning they're 4 signs or 120 degrees apart in the zodiac. It's a very harmonious aspect to have!

These two can really have **interesting conversations as they pick apart each other's brains**. They're the type of couple that can sit for hours playing chess, and speaking about the future of the world.

**Sex is quite an adventure with these two as she brings "dirty talk" into the bedroom**, giving him the opportunity to let go and get experimental with her in all kinds of ways. He brings cock rings and other sexual gadgets into the bedroom, much to her delight!

The Gemini woman also gives her Aquarius man a lot of variety as she is here, there and everywhere, always bringing surprises into the relationship, and **keeping the Aquarius man on his toes.**

**It's a good match for marriage and children,** where the kids will be brought up around much love, care - and many, many books (as Gemini adores reading and writing)! The children will also be introduced to technology at a very young age.

#### **4. Aquarius & Cancer**

It has to be said straight away that **this makes for a very difficult coupling.** Here we deal with the ever-changing moon (Cancer), and the powerfully rebellious and shocking Uranus.

**Cancer is full of tears and all about sentiment, the past, and feelings,** which is a beautiful quality and much appreciated by all water and earth signs. however, **the Aquarian man cannot relate to this kind of energy.**

He is always thinking of the future and how to further humanity. The Cancer woman mainly thinks of home and how to protect her nest from any sort of danger that lurks out there.

**She is so overly sensitive that he often crushes her spirit by continuously telling her she's too sensitive, as he doesn't understand emotions well.**

If he allows himself to tap into his emotions, or possibly has his Venus or Mars in Pisces, he will understand her better, and **the sex between them can be taken to a higher spiritual level.**

Normally the Cancer woman feels that sex with her Aquarian man is just about the physical act. She wants to look deep

into his eyes while he tenderly embraces her and French kisses her softly. He may give her that, but only if he's deeply in love with her.

**He needs his freedom in the world, and she clings on to him for dear life.** This relationship will only work if they both have personal planets in each other's elements (air and water) so as to understand each other best.

## 5. Aquarius & Leo

This is a **dynamic couple**. They oppose each other as they sit at opposite ends of the zodiac, but each one has qualities that the other one wishes they had more of! They make an **opposition aspect** which means they sit at 180 degrees, or 6 signs, apart from another.

**The Leo woman teaches the Aquarius male to focus more on himself**, and not so much on humanity, and the **Aquarius male teaches his lovely, confident (and often egotistical) Leo woman to care more about people** other than herself.

When the Aquarius male first lays his eyes on a Leo female, her energy shines so brightly that he cannot stop thinking about her. In her mind, the Aquarius male is so different to anyone she's ever met that she finds him really interesting.

Aquarius men can also be very tall, as well as powerful, and this appeals to her very much, being a lioness and queen of the jungle!

**The sex between these two is magical**, as confident Leo takes Aquarius to higher planes, and Aquarius is so open-minded to whatever she suggests. They are good friends too and may talk during and after sex and while cuddling.

Since they are opposites, they may view the world very differently to one another, but if they can get through this, they can be **very happily married**. She will insist on children, as soon as they are married, and he will love her so much that he will most probably oblige.

## 6. Aquarius & Virgo

The Aquarius male respects the fact that his Virgo female is such a perfectionist and so detail-oriented. **She may even be able to help him with work projects to gather all the vast information he has and funnel it in a more precise and relatable way.**

The Virgo female respects the fact that her Aquarian man is so brainy, and she likes the fact that he attracts friends easily.

However, the Virgo female can be very anxious at times and want the security of home and people she knows to keep in check with her feelings. She can be sensitive at times, and the Aquarius male doesn't really have the necessary empathy for this.

Here you have Mercury (Virgo) and Uranus (Aquarius) playing with each other; however, Mercury sits much better with Uranus when it is in Gemini. **There isn't always too much understanding between this couple**, and the Virgo lady may pass judgement at times.

**When it comes to sex, he will want to conquer her body as she can be very pure. She will enjoy sex with him as he will listen to her needs.**

This isn't the ideal couple for marriage, and in order to work, Aquarius will really need to pay attention to his Virgo lady's

perfectionist needs and she will need to be more open-minded for him.

It will also help tremendously if they have personal planets in each other's elements - Virgo is earth, and Aquarius is air.

## **7. Aquarius & Libra**

**The Aquarius male and Libran female have a wonderful understanding between one another. They can both be very mature and see life similarly.**

There is not much drama with a Libran female, and she can be as emotionally detached as her Aquarian man. They both can enjoy life on a certain superficial level that doesn't bother either of them.

**Libra makes life easy for the Aquarian male as she loves harmony.** She'll also leave him alone to all his zany ideas, as long as he can promise monogamy, faithfulness and love - that's all she wants (and marriage).

**Libra rules marriage, and when the Aquarian man meets this charming and beautiful woman, he may start thinking of marriage for the first time in his life.**

**Sex between these two is rather lovely and romantic.** The Libran woman really ignites the passion of the Aquarius male, as she makes everything just so lovely- including herself.

He will make love to her until she orgasms and will have no problem going down on her until she explodes. She will enjoy pleasuring him. Aquarian men don't cuddle much, but **he may just love cuddling his perfect Libran woman.**

The Aquarius male and Libran female are both of the air element and both masculine signs. The only difference is in their modalities - **Aquarius is fixed, while Libra is cardinal.** In a way, this is good, as Libra will encourage the start of things and Aquarius will build on that.

Together they make a **trine aspect**, meaning they are 4 signs or 120 degrees apart in the zodiac. This is a wonderful aspect for a romantic relationship.

This is **definitely a wonderful match for marriage.** The Libran woman will hurry the Aquarian man to propose, and together they will raise a special family with not much dysfunction. The Libran woman brings balance to all, as a mother, and as a wife.

## **8. Aquarius & Scorpio**

Aquarius is ruled by Uranus and is associated with Ouranos and Prometheus. Scorpio is ruled by Pluto and is associated with the god of the Underworld - Hades. Together, they make a **square aspect** (90 degrees or 3 signs apart in the zodiac), and it's a **tough match**.

However, it is a very interesting match as **they are both rebellious in different ways.**

Aquarians are rebellious in the way that they like to try out different things and not follow the crowd. Scorpions are rebellious in a darker way, where they are attracted towards the darkness.

This rebellious streak in both of them is what first ignites a spark between them. They may even meet at a protest for a cause they both believe in.

The sex between these two is very WEIRD to say the least - it may even be perverse (as in wearing rubber suits) and practicing all forms of BDSM. Aquarius is very open-minded and Scorpio loves pleasurable pain, so this is a potent pair in bed!

There is so much sexual experimentation between these two - where they may even end up going to orgy parties. This is a sexual relationship that needs to be treated with care, or it can turn toxic.

Scorpio women are REALLY deep with a lot of emotion - and Aquarian men don't really get this, or care for it. The **Aquarian man in this relationship will also not tolerate any sort of jealousy and possessiveness** that his Scorpio woman will have over him.

This match will work better if the Aquarius male has his Uranus in Scorpio, and the Scorpio woman has placements connected to the 11<sup>th</sup> house or Uranus.

If this isn't the case, the more personal planets the Aquarius male has in Scorpio, and the more planets the Scorpio female has in Aquarius, the better.

## 9. Aquarius & Sagittarius

There are a lot of similarities between Sagittarians and Aquarians. They are both free thinkers that love to explore. Aquarians love to explore their minds, while Sagittarians like to explore the world. However, Aquarians do love to travel as well.

Aquarius and Sagittarius make a **sextile aspect** to one another. They are two signs, or 60 degrees, apart in the

zodiac. A sextile aspect is a very harmonious aspect, and one of the **best aspects for a successful relationship**.

Sagittarius is a fire sign, while Aquarius is an air sign, and together they harmonize beautifully as fire needs wind and oxygen to flow and breathe.

**Sagittarians, like Aquarians, are very independent, and like to be feel free to roam around as much as they want, although this doesn't mean they will be unfaithful.**

Together, this is a great couple for adventurous travels and debates about science, philosophy, religion, and the universe. They will really be attracted to each other's personalities and minds.

**Sex between these two is interesting. They may incorporate tantric sex into their sexual encounters, try different sex toys, and even join the mile-high club together. They may also enjoy having sex outdoors while camping!**

Their life will certainly be an interesting ride. They make a wonderful pairing for marriage, and will have the most interesting children who will love digging in the backyard and creating imaginary adventures for themselves.

## **10. Aquarius & Capricorn**

**Physically both Aquarians and Capricorns are often very tall.**

Before Uranus was discovered in 1781, Aquarius was ruled by the same ruler as Capricorn – Saturn.

**However, Capricorns and Aquarians can be very different in the fact that Capricorns really enforce discipline and rules, while Aquarians are a little freer in attitude.**

But there are many Aquarians who are very strict about certain rules and they require others to follow them. Remember, in Greek mythology, Ouranos was a god who fathered the Titans whom all others had to obey. It was Cronus (Saturn) who castrated his father Ouranos.

**This relationship can only work if** both the Aquarian male and Capricorn female involved both think of themselves on a higher level than most people, and **enjoy rules and disciplining others**. Yup, it's kinda complicated!

If that is the case, then **they can have a solid marriage with many children and grandchildren, where family will be important**, and there will be a strict matriarchy and patriarchy.

However, if the Aquarian male involved is really easygoing, he may find the Capricorn lady a little difficult – although they will make great friends, and be able to learn from one another.

In bed, **the sex will be wild, yet traditional, with the typical positions explored (that being missionary, “Queen of the castle,” doggystyle, and spooning)**. However, the Capricorn woman may get pretty sexually adventurous at times!

This is the kind of couple that can achieve great things in the world, as well as material wealth, if they work together.

## 11. Aquarius & Aquarius

There is obviously so much understanding between these two as they share the same sign, element and modality.

**They will always start out as friends, then slowly become best friends, until the Aquarian man musters up enough courage to ask the Aquarian lady to be his girlfriend, and then eventually his wife, possibly 10 years down the line - Aquarians don't rush marriage!**

Sex between these two will be very romantic, as they started out as friends and care for each other very much. Later on, they can let out their truly eccentric sides and experiment more and incorporate many gadgets into the bedroom.

Together, this is a couple that can really build a life together, and share their dreams together. They will also enjoy having the same groups of friends and being social together.

They make a wonderful couple for marriage where children will eventually come - **usually in the woman's late 30s**, after they have explored the world. If they have the financial means, their children may get very spoiled!

## 12. Aquarius & Pisces

Aquarius and Pisces make an interesting match as they sit next to each other in the zodiac, just 30 degrees apart. **They learn a lot from one another!**

Pisces is all about no boundaries, and that there is no separation between people, and Aquarius is all about developing humanity for the better, so in ways they are similar.

However, Aquarians are often left brained people where logic rules them. Pisces are often right brained people where creativity rules them.

**Aquarians are ruled by the head, and Pisces are ruled by the heart.** The Aquarian man really doesn't know how to deal with his sensitive angel of a Pisces lady who continuously needs rescuing.

He may give her a lot of "tough love" which she will not understand and which will only damage her. Aquarians can be

very emotionally detached, and Pisces cannot relate to this at all.

**They will be friends**, but only really work if they have personal planets in each other's signs so as to truly understand each other better.

Sexually, **the Piscean woman can really bring her Aquarian man's imagination to life with roleplay and costumes. He will tantalize her with sex toys!** However, she always needs that deep emotional connection and to be held after sex, which won't always occur.

Pisces and Aquarius do make better friends than lovers; however, if they do start dating, they will really work on it hard to make it work!

**Now that you know what your zodiac sign is like with an Aquarius man in bed, how about actually finding an Aquarius man! Where do they like to hang out?**

## **5 Best Places to Meet Aquarius Men**

### **1. Computer/Science Exhibition**

**This is the number one place you will find Aquarian men.** These men truly feel at home in this kind of environment. In this place they get to play with all sorts of gadgets, and get a glimpse into the future of technology.

**Put your glasses on, wear a sexy suit,** and go fetch a nice Aquarius man in this pool of electricity and technology.

**You'll definitely bag yourself an Aquarian male here.** They may look a bit nerdy in this environment, but they'll definitely get sexier once you get to know them!

### **2. Comic Con**

**Aquarian men are very eccentric, and the type of guys that will definitely dress up as their favorite comic book heroes and attend a Comic Con.**

**Have a little fun with this and dress up as a character that really appeals to you, like Wonder Woman or Black Widow.** You'll get to look really sexy too!

**You're bound to bump into many Aquarians here.**

### **3. Personal Growth Seminars**

**The 11<sup>th</sup> house rules ambitions, personal dreams, hopes, desires and goals. There will usually be a ton of Aquarians at these seminars, normally with front row seats so they can absorb as much information as possible!**

**When there are breaks, make your way over to the men that look the most eager and keen to learn, the ones who asked many questions during the seminar - they'll usually be the tall ones too.**

### **4. The Airport**

**Aquarians love freedom, and part of that freedom is exploring the world. That's why there will be tons of them walking around the airport.**

**You're bound to bump into them at airport cafés and lounges. You may even get lucky and have a nice Aquarian man sit with you on your flight.**

**If you are someone that travels a lot, get ready to meet Aquarian men!**

### **5. The Gym**

**At first, you wouldn't really relate an Aquarian male to exercise, but then again you need to remember that an Aquarian man always wants to be the very best that he can be.**

**That's why you get Aquarian sports legends like Michael Jordan and Cristiano Ronaldo in this world.**

**Aquarians want physical perfection.** That's why many of them will be at the gym. They're not there to attract attention (leave that to Aries and Leos). They're there to build muscle, feel healthy, and look amazing.

They will strive to have the perfect male body. Generally, Aquarians are not very overweight people, and don't really like being overweight in any way. They will work hard at eliminating fat on their bodies.

**Look for the men that aren't too noticeable or showing off, but who are consistently in the gym (possibly wearing violet or blue) working at their health and fitness.**

Now that you know where to bump into Aquarius men, perhaps you should know what the best colors to wear to attract them are! The following are colors that Aquarians gravitate towards.

## 5 Best Colors to Wear to Attract an Aquarius Man

If you want to attract an Aquarius man, wear the colors that attract him the most. These colors are **electric blue, violet, aquamarine, turquoise and white**.

In the winter, you can wear blue jeans and a white sweater to keep warm and look good in. In the summer wear a violet dress that accentuates all your curves, and sexy boots, heels or pumps.

**Aquarians are eccentric and will notice if you dress a little differently, and will like it!** So, feel free to wear hats and scarves and lots of different kinds of jewelry. You can even wear tie-dye clothes as this will appeal to “certain” Aquarians.

Look different, and he’ll notice.

You should wear jewelry with glass uranium. He will really be hypnotized by it. Other stones you should wear in your jewelry are amethysts, sugilites, ambers, garnets, and hematites.

Now that you know all the things that Aquarius men really like, it's **IMPERATIVE** to know what they **HATE** - all the little (and big) things that will make them run from faster from you than they can sneeze! Write these down and don't forget them!

## 7 Things That Turn Off an Aquarius Real Fast

Certain things can make the sexual relationship between you and your Aquarius man fizzle instead of sizzle. Avoid these things if you want to keep the romance between the two of you **saucy** and **sexy**:

### 1. If you don't grow as a person

**Aquarius men are very much into self-awareness and personal growth.** They continually want to evolve and develop into the most superior human beings they can be.

Many Aquarians would, in fact, fuse their bodies with artificial intelligence if it meant they would be superior human beings (and something like that might just happen one day).

**Aquarians want to date women that are able to grow within themselves** and not just stagnate. That's why Cancerians and Taureans are not ideal matches, yet Sagittarians and other Aquarians are perfect.

If you stay where you are in the relationship and don't grow, your Aquarius boyfriend will start to get bored within the relationship.

Do what you can to self-develop when dating this man. It is a healthy state of being, and will serve you well!

## 2. Follow the crowd

Aquarian men are really put off by women that don't have their own voice and who just follow the crowd. They notice women that make their own mark in life, and don't do what everybody tells them to do!

The worst thing you can do when dating this eccentric man is copy and imitate others. It's not so much that he wants someone unique, as much as he wants someone different.

The weirder, more eccentric and kookier you are, the more curious he'll be about you - so don't be afraid to be yourself. Even if you think you're the biggest geek, he'll love you more for it!

## 3. Don't like people

There are certain degrees to what level of dislike you may have for other human beings. **Aquarius is a sign that generally loves humanity and people** - just look at the two biggest talk show hosts on earth, Oprah Winfrey and Ellen DeGeneres, who are both Aquarians!

If you are someone that hates human company and avoids it at all costs, it's **best to rather date a Cancerian or Taurean** who often "hibernates" at home, or a **Scorpio** who is very private when it comes to other people.

Aquarius is a social air sign that needs to communicate their ideas - even if it means passing on their technological ideas to millions of humans.

If you just like to be alone the whole time, he won't be able to understand it, and won't find it appealing at all.

#### **4. Try limit or constrict him**

Even though Saturn, with all its rings, originally ruled Aquarius, **your Aquarian man hates to be constricted in any way.**

Uranus eventually came around and freed this sign, and **Aquarius is a rebellious sign. He hates being told what to do**, and even worse, punished for his decisions. Being constricted, just like Prometheus hanging upside down, is the worst punishment of all.

Aquarius loves **freedom**; and more than loving it, **he NEEDS it.**

Don't make the mistake of constantly telling him what to do or trying to limit his pleasures in life, as it won't be appreciated.

#### **5. Not be able to engage in intelligent conversation**

Aquarius men are very much about the mind, and are usually very intelligent. **They really need to be with a woman that stimulates their mind as much as their body** - sometimes even more.

It really doesn't matter if you look like a Barbie Doll - he wants a woman that can literally challenge him in chess. He even likes a good debate.

**He also wants a woman he can introduce to his friends who can hold a conversation and even impress them with her knowledge.**

He really wants a woman that he can talk to about many things, well into his old age!

## **6. Get too emotional and cry a lot**

Aquarius is the **most emotionally detached sign** of all the signs and that's just a fact. Aquarius men get **really uncomfortable around tears and too many emotions**. They honestly don't have time for it.

It makes them sound a bit cold, but they have their individual karma in this life that they must live through, and empathy and emotions are not part of it.

That's why it is very difficult for an Aquarian male to have successful relationships with the water signs (Cancer, Scorpio and Pisces), as they're such emotional signs. At the same time, water signs find Aquarian men very heartless at times.

## **7. Be erratic**

**Aquarian men get confused by erratic behavior**. They simply won't know what to think if they go to bed with you one night, and you wake up and behave like a completely different person the following day.

**Behavioral consistency is important to them** as they can rationalize it. Erratic behavior is just completely irrational to them, and they won't be able to figure it out.

**If you are a person that changes moods every few hours and who is not very stable in personality (there is nothing wrong with you), you just need to be very careful about dating an Aquarian male.**
